2025-07-                      No. D8(E)-  
Re: 2025-05-23              No. SYKE/2025/1121

**REGARDING NOTIFICATION OF A PRELIMINARY DRAFT PLAN OR PROGRAMME WITH POTENTIALLY SIGNIFICANT ENVIRONMENTAL EFFECTS - ARTICLE 10 PARA. 1 OF THE SEA PROTOCOL CONCERNING THE DECISION ON SELECTING POTENTIAL OFFSHORE WIND FARM SITES WITHIN THE FINNISH EXCLUSIVE ECONOMIC ZONE**

This letter is the formal reply to the Notification pursuant to Article 3 of the Convention on Environmental Impact Assessment in a Transboundary Context (Espoo Convention) regarding a decision on selecting potential offshore wind farm sites within the Finnish exclusive economic zone.

Ministry of Environment of Lithuania, as an authority responsible for coordination of the transboundary SEA process in accordance with Espoo Convention published the received documentation on its website and distributed it to the relevant national authorities, providing an opportunity to submit comments and proposals.

Ministry of Environment concluding the results of the consultations with public and national authorities:

- acknowledges the receipt of the notification,
- informs, that Lithuania does not identify significant negative transboundary impacts on the territory of Lithuania and does not intend to participate in the transboundary consultation process as an affected party as the potential offshore wind farm sites are located at a considerable long distance away from Lithuania's protected areas and European ecological sites in the territory of Lithuania Natura 2000 sites,
- kindly recommends assessing cumulative potential impacts together with other wind farms and other activities in the Baltic Sea, which may increase cumulative environmental impact,
- asks to provide information about the progress of SEA and about the decision on selection of the wind farm site.

Vice-minister  
Tomas Vaitkevičius
