**REGARDING TRANSBOUNDARY ENVIRONMENTAL IMPACT ASSESSMENT FOR A
PLANNED ENERGY FARM “NEPTUNUS” IN SWEDEN’S ECONOMIC ZONE (CASE
NUMBER: NV-02335-23)**

This letter is the formal acknowledgment of the receipt and the reply to your notification of 14 June 2023, NV-02335-23 in accordance with Article 3 of the Convention on Environmental Impact Assessment in a Transboundary Context (hereinafter referred to as the Espoo Convention) regarding transboundary environmental impact assessment (EIA) for a planned energy farm “Neptunus” in Sweden’s economic zone (hereinafter referred to as the Project).

Ministry of Environment of the Republic of Lithuania, acting as an authority responsible for coordination of the transboundary EIA process, has completed the procedures of informing the public and consulting relevant Lithuanian authorities. No responses were received during the public consultation, and national authorities provided no arguments or concerns regarding significant negative environmental impacts.

Consequently, we do not consider the Project to have likely significant adverse transboundary effects on the environment of Lithuania, do not have any comments concerning the scope for the assessment and do not intend to participate in the environmental impact assessment procedure under paragraphs 5 to 8 of Article 3 and Articles 4 to 7 of the Espoo Convention.

However, the Ministry of Transport and Communications of the Republic of Lithuania kindly asks to assess potential consequences of the fact that the southern part of the planned “Neptunus” energy farm intersects a shipping corridor from the Baltic Sea through the strait north of Bornholm Island to the port of Klaipėda.

Finally, taking into account a request from the Ministry of Energy of the Republic of Lithuania, we kindly ask to keep us informed about the progress of the Project and especially about the technical solutions for connecting the energy park to the electricity grid, when such information is available.

Yours sincerely,

Vice-minister
Raminta Radavičienė
